

DIGITAL INNOVATION HUB PHOTONICS

DIHP PITCH 2022

PITCH YOUR IDEAS AND BOOST YOUR ENDEAVORS WITH PHOTONICS

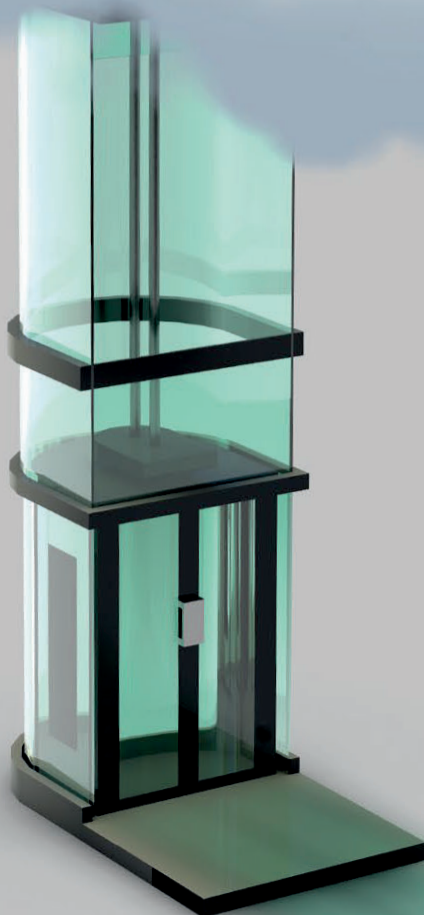

You have ideas? Great!

You have ideas that can be developed further with photonics, and you are looking for support in their conceptual and technological implementation? Even better.

Then participate in this year's DIHP Pitch enabled by Thüringer Aufbaubank. The pitch will take place on **May, 23rd 2022**.

The **Digital Innovation Hub Photonics (DIHP)** supports everyone with founding intentions, founders (Start-Ups), and small- and medium-sized enterprises (SMEs) in the development of (marketable) technologies and demonstrators in **optics, photonics, biophotonics**, and beyond. You can win substantial research support from DIHP funds for further development at one of the five research institutes.

If you are interested, please send your application to dihp@iof.fraunhofer.de (Dr. Sebastian Händschke and Eleonore Roderfeld) by **May, 15th 2022**. You will find more information and the timeline on www.innohub-photonics.de.
